THE ASYLUM PROPOSITION.

Every paper in the State favors the proposition for Nevada to have an Insane Asylum. The latest papers to give expression to their views are the *Tybo Sun* and *Grantsville Sun*. The former says:

We still hold to the opinion that the establishment of an asylum somewhere within the borders of the State would insure better treatment and give more general satisfaction than the present method does. It would, also, silence the periodical complaints of a certain class of chronic fault-finders. No doubt the cost of keeping the insane will be somewhat greater than it is under the present system, but that will be more than counterbalanced by other considerations aside from those of humanity.

And then, the cost of keeping each one, we think it poor economy to send the money raised by public taxation out of the State to be spent. It operates as an injustice to the tax-payers of Nevada, who have all the burdens of supporting the insane to bear while the citizens of California get all the benefits derived from their support. This is false economy. Were the State to build an asylum for her insane, it would give employment to a number of her people and furnish a market for the agricultural products, besides keeping the money now sent to California in our midst. Thus the people of the State would share alike the profits and burdens of keeping the insane. But there are humanitarian reasons, aside from those of economy and justice, which forbid the farming out of our insane to irresponsible persons, residents of another State, and beyond our jurisdiction. It is repugnant to the feeling of humanity to send a number of human beings out to individuals to be cared for at so much abrid, like so many dogs or sheep. If they had the use of their reasoning powers it would not be so bad, but they are as helpless to protect themselves against abuse, and maltreatment as so many dumb animals.

The Grantsville *Sun* says: The Legislature has a plain duty to perform at its coming session. It is to have an asylum built for the insane of this State. Hitherto, they have been sent hundreds of miles away to Woodbridge, California. Enough of the people's money has been foolishly squandered in the way of railroad fares, extra mileage, etc., to erect a magnificent establishment for the care of the insane. Besides, the money for their care is spent abroad instead of at home, and is of no benefit to the tax payers of Nevada. Let us by all means have an asylum, as the State is now prosperous enough to erect one.

D. B. FRINK'S MONUMENT.

Few families in Truckee ever pass a Thanksgiving day without a sorrowful, reverential mention of the name of D. B. Frink, the founder of the *Republican*. Four years ago this week he was killed. He was such a true noble man, so zealous an advocate of the interests of Truckee, and was so sincerely devoted to the welfare of the community, that every body loved him. His tragic death is to day a theme of exciting interest in family circles, or among his friends. The man who killed him, long since drifted away from Truckee, a wreck and an outcast. He was one of Frink's best friends, and the unfortunate deed has cursed his existence. A monument has never been erected to Frink's memory. Nothing has been done to manifest the respect which Truckee ever feels, and expresses toward the man she considers her benefactor. To be sure his body was taken to Nevada City, away from Truckee. This, however, should not prevent our citizens from giving him a fitting monument. We will start the movement! —*Republican*, 27th.

THE DAILY JOURNAL

the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL

Has a combined circulation larger than that of any other journal of Nevada, excepting those of the Comstock.

NEWS OF THE MORNING.

A Chinaman has been naturalized in New York.

Mayor Doyle, of Providence, R. I., was re-elected.

It is stated that Weston is going to San Francisco to walk 522 miles in 144 hours.

Intelligence is received from New Caledonia of a fresh massacre of colonists by the natives.

It is reported that the Ameer, upon hearing of the fall of Fort Ali Musjid, released his son Yakob Khan.

The American residents in Paris Tuesday night gave a banquet in honor of Governor Richard C. McCormick.

The latest news from the Sierra Nevada mine is that the crosscut has passed through the porphyry and is in good ore.

The newspapers of Rome announce assassinations in the provinces. It is not known yet whether they are political or not.

On the return of the Emperor of Germany the authorities intend to declare Berlin in a state of siege under the provisions of the Socialist law.

The Secretary of the Treasury has issued a call for the redemption of five millions of 5 20 bonds of 1865, consols of 1865, coupons and registered bonds.

Prince Charles of Roumania has issued a proclamation formally annexing Dobrudja and proclaiming liberty and equality for Mohammedans and Christians.

So far the Ameer's troops have fled before the British, almost without a struggle. The "war" seems to be but little more than a dress parade for England—the strongholds all surrendered at the first demand.

While Count Audrassy was attending a public reception in Pesth, given in his honor, a Socialist exploded a bomb, charged with dynamite, near the building shattering it considerably. No one hurt, no clue, great excitement.

The Commissioner on Indian Affairs urges the consolidation of tribes, reducing the reservations to nine, and restoring to the public domain 17,642,445 acres of land. He also wants 3,000 Indian cavalry, officered by whites.

Nothing is known at the Central Pacific Railroad Company's headquarters of the reported consolidation of the Union and Central Pacific Companies, under the presidency of Sidney Dillon, and it is represented that the story has been probably gotten up in the interest of speculators in railroad stocks.

The Socialist agitation continues in the Italian provinces. The Deputy Mayor of Osimo has been stabbed by an assassin. In Jesi, a neighboring town, the Republicans, carrying a red flag, paraded the streets. Cardinal Nina, by order of the Pope, has instructed Nuncios to urge upon the various governments the duty of repressing Socialism and restoring the prerogatives of the Church.

In New Orleans Tuesday, Judge Whitaker, in the Superior Criminal Court, charged the Grand Jury to inquire into the frauds which have been perpetrated at the last election. He said that their body was composed of all political parties, and they could, as good citizens, make a diligent and impartial inquiry as to these frauds, and pledged the support of the Court and its officers to assist them.

According to special dispatches, the following passengers from the Pacific coast were saved from the Pomerania, wrecked by a collision in the English Channel, Monday night; E. Arnestin, San Francisco; Edwin Hurt, Arizona; John Mankevius, California; Edward Pearce, California; W. H. Pearn, Nevada; Thos. Phillips, Nevada, and Wm. Schroeder, San Francisco. The following were on board, but their fate is unknown, being missing: Mrs. Arnestin, family and nurse, San Francisco, and Caroline Dehn, San Francisco.

EDITORIAL JOBS.

At last the United States has got around to the Credit Mobilier. This scandal occurred so long ago that we have all forgotten about it. Oakes Ames, the originator of it, is dead. Schuyler Colfax and other prominent men who were said to have been shareholders in the thieving concern, have retired from public life, and it is almost like reading the Bible to again run over a matter so dead and forgotten as the Credit Mobilier.

Some of the papers are holding up their hands in horror at the conduct of the Truckee people in compelling the Chinese to rebuild in a spot where the town is not endangered from fire and disease. If the journals alluded to had had the experience of our mountain sister probably they would fiercely demand that all Chinamen and China shanties be sunk in the Pacific ocean. Truckee's experience has been a dearly bought one, and though decided nothing of an incendiary proceeding was visible in their efforts to force John to vacate and build on a spot provided, beyond that induced by a love of self-preservation. Save those tears.

The cash principle will no doubt be generally introduced in Reno on the first of January. In fact we may expect to see it as one of the "reforms" incident to the advent of the new year. Once thoroughly at work all will concede its value over the present shabby system. One little imagines the cost of luxuries when a "charge it" is all that passes at the time, but when at the end of six months or a year a bill of alarming proportion is presented as a result of so many "charge its." Required to pay cash the buyer knows how he stands from month to month, and saves money. The cash system is really the only true way to do business. It is unpleasant to refuse credit, but business men are compelled to do it to save themselves from bankruptcy.

THANKSGIVING.

It was a very happy idea this thought of reserving one day in the year to be observed as a day of thanks giving. The last Thursday in this month has now become by common consent the day set apart for the purpose, and the President's proclamation is soon followed by those from the Governors. Business is generally suspended and the day devoted to family reunions, appropriate Church services, and private devotions. As a community we have much to be thankful for; but very little cause of complaint, and Reno and Washoe county should render all honor to the day.

The Elko Independent has been figuring on the election returns, and gives the result of its calculation as follows: The complete election returns of this State show that there were 18,592 votes cast, as against 19,631 cast two years ago, showing a decrease of 1,039. The counties in which the decrease occurs are as follows: Douglas, 9; Lincoln, 199; Lyon, 240; Washoe, 143; Nye, 184; Ormsby, 311; Storey, 1,214; White Pine, 170. Total, 2,470. In other countries are gains as follows: Churchill, 71; Elko, 285; Esmeralda, 249; Eureka, 601; Humboldt, 69; Lander, 156. Total, 1,431. Which subtracted from the decrease in other counties leaves a net decrease of 1,039, as above stated.

Too MANY PARDONS.—Governor Williams, of Indiana, pardons more criminals than any other chief executive officer of any other State in the Union. It is said that it is only necessary to present him with a numerously signed petition to reach his sympathies, convince his judgment, and secure the release from prison of the most hardened convict. The Indianapolis Journal alleges that these pardons impose an additional tax of \$125,000 per annum upon the people, and that crime has increased twenty-five per cent in Indiana since Williams became Governor. It proposes to deprive him of the pardoning power, and vest it in a Commission, as is done in some of the other States.

KEARNEY had a large procession to welcome him back to San Francisco. Two thousand men and boys, with torches, were in line and marched through the streets to the sand lots, where Wellock made a speech of welcome. Kearney replied briefly. A large crowd was at the lots, and women and children were at times in danger of being trampled on.

The British Parliament will meet in December.

LET NO GUILTY MAN ESCAPE.

The other day Judge Rives, at Eureka, charged the Grand Jury as follows:

"Lastly your attention is especially called to an act entitled 'An Act Relating to Electrons.' This is the most important law under which you are now ruled, at this time, to make investigations, and I urge upon you the great necessity of thoroughly examining as to offenses which may have been committed under it."

It is a matter of common repute that during the late election many such offenses were committed, not alone in this, but in every other county in the State, and while I know of none having been actually perpetrated, I do not believe there is a sane man in the community but who feels morally certain that they have been; and I believe further that prompt, faithful, energetic and fearless investigation and action on your part will result in bringing some of the offenders to justice.

The practice of "buying votes" as it is called, had become so open, notorious and disgraceful that the Legislature of 1873, endeavored to put a check upon it by passing this ample and exhaustive Act against it. This has now been in operation for five years without a single conviction under it, although the venal practice all the while continued. So far from there having been a conviction, there has never been a single indictment presented. The people not only are weary of the inactivity of the officers of the law, in this connection, but are richly becoming alarmed at the probable results, unless those who have the means and turpitude to purchase up the venal and debased, are at once rebuked and punished. Neither rebuke nor punishment can be administered to those deserving of hot unless a Grand Jury can be found fearless, faithful and energetic enough to hunt down these corruptors, who are not only law breakers, but thieves of the liberties of the people. I am required by the statutes to charge you on this subject, and my only regret is that I feel my self ready unable to do the subject justice, but relying "pon your integrity, your judgment and honest desire to do your whole duty, I conjure you to pursue your inquiries on this subject with zeal energy and fearlessness. Let no feelings of friendship, political or personal, influence you in the least degree from your duty under your oaths, and as good citizens. Spare no man whom you may find to have committed an offense under the law. Self preservation demands that this matter should be thoroughly investigated, a check placed upon the practice, and an example made of the guilty. Until such is done neither the rights of persons nor property is safe from the results of such dangerous and unlawful acts."

I might call to your attention particular cases and persons whom universal report connects with these matters; but I forbear, because I might do innocent men a great harm, and I leave to you, after an opportunity for inquiry, to determine the guilty ones, as far as you can, or to exonerate all, you will probably find that the men of each political party have been equally guilty, and I have that faith in you impartiality and devotion to the demands of right and you will make no invidious distinctions. All of which is respectfully submitted.

HENRY RIVES, District Judge.

THE Chinese Minister has several times of late called at the Department of State on business, after the manner of other Ministers from foreign countries. No allusion was made by him to what is known as the Chinese question, nor has anything been said with reference to the Burlingame treaty, which guarantees protection and certain privileges to the respective sojourners of one nation in the territory of the other.
